PROSPECTUS OF A new Story on an old Subject.

THE AUTHOR in presenting the to lowing work to the public can not but feel that he has an ardnous task to THE AUTHOR, in presenting the to lowing work to the public case not but feel that he has an ardions task to perform in catering to the public (and, and has somewhat digressed from the established rules, and customs of authors by aking up a subject which, if carefully persued, and the advice herein contained followed, the ambition of the author will be gratified to its namest extent, and the object of this work will have been attained, viz: to put money in a y pocket and to give to the careful and infulgent reader a literary treat through the agency of the digestive organs. It might perhaps be necessary to state, that the most of the manuscripts from which this tale was founded was taken from an old dress pocket found in a rind hand Clothing Stare a few weeks since in New York by the author, and originally owned by the indefatigable was Tooptes, at once conveying to the mind of the reader that a birgain that he expected. Hoping the kind and indulgent public will excuse any blunders and look with a putronizing eye upon my himble efforts to prome for them 1st, orders to finperial and Black Teas, the linear ever brought to this market, and put up in each a shape that every one can see it for themselves. Still keeping in view that philanthropic principle which actuated me to purchase of the importers a choice selection of Mocha, Old Gor Java and Baltimore His Coffees. I must not digress so far from my subject as to forget that I also faid in a beautiful supply of Baker's Broma and French Chocolate, so excellent morning drait for my nervous reader in these troubleus political times. In compiling the forthcoming work I shall "differ pretty extensively on the merits of "Fe Fy" The following extract taken from the "Eury" letown Fassett will convey some idea of the attention paid to that valuable insect!

"We take great pleasure in announcing that a celebrat-

letown Fessett will convey some idea of the attention paid to that valuable insect:

"We take great pleasure in announcing that a celebrated anthor from one of the Western States is now in our city collecting specimens for a forthcoming work, upon which he is engaged. We notice a large invoice of the genuine "Hedrick Champagne." Together with a full assortment of choice Wines and Liquin, among which the justiy celebrated Tobernay Brandy, all of which the liberal nother intends to trest his many readers, to or as many of them who have the magnamity to pay for it. We wish the author success to his new work, which is to be wish the author success to his new work, which is to b called " Fe Fly."

Flour's style so common with writers of the present day,
he begs to say that in itsproper place in the work he will
serve up 800 bags of that indespensable article in 25, 50
and 100 ib bags, thereby leaving it at the option of the
readers to Flour to their own taste. For "Fear" (and what
author is without it) that this stupendous enterprise might
and in "mosts" the author has carefully laid in a large
and choice collection of "Separs," which will give each
reader an opportunity of sustaining the author by giving
him a "most" and lorthermore, in order, to veryify the reader an opportanity of sustaining the author by giving him a "golf", and furthermore, in order to veryif the oldProverb of where there is so much smake there must be some fire, the compiler of these valuable manuscripts has added a heavy stock of "Matches". As another digression, for which I beg pardon of all authors who "gold" their concoctions with brilliant showers of wit and humor, I have employed a substitute, which I cannot but believe is of a more substantial nature, viz: a choice assortment of Naturaga, Ganger, Camamon, Glover, French, English and Kentucky Mustards, Allepies, Pepper, ground and unground. Citaga of different varieties, Morcadershire ground, Claups of different varieties, Worcedershire John Bu'l and Harrey States, and in the place of sweetening the many beautiful passages, which will occur from time to time with mondaght rays, replays breezes, and the nectar sin'd from the pure lips of innocence, I have emplaced the more powerful argument of Powdered, Crushed, Loaf, Clarified and Granulated, and different degrees of Brown Sugara combined with the more liquid streams of Rebuild. of Rebuild, Sugar commoned with the more index screams of Rebuild, Sugar thouse and Plantation Molasses, and the bright and flowing inclien Syrup. How beautiful, indulgent reader, does Pope or Guilliver (the author does not distinctly remember) express himself in the following

How doth the little busy Bee Improve each shining hour
And gather Honey———I here beg leave to
say that in order more fully to carry out the objects of this same work, I have provided myself with a large stock of honey the author above speaks of, which will be used in as natural state or "straiged" to suit the taste of the reader, as "straining" is a too common error among authors, which too very often places them in a position where they are compelled to make a "value." I have in order, if possible to avoid that unpleasant predicament, taken the precontion to provide a large supply of Presion taken the precaution is provide a large supply of Fresion & Merrill's Faust Franders, whose raising qualities my numerous readers have probably formed some opinion. As a bright and shining "light" as I intend this work to be I shall substitute the agency of Star, Adamantine, Sperm and Tellow Oundles, and to "cleanse" the mind of all impurities shall reserve to Challe, Clein and Common Bar Song, which together with Wash Boards, Tabs., Buckets, Brooms, and Serub Brustes, I have procured an absordant surgily. As his a time honored custom with an abundant supply. As his a time honored custom with compilers of great works to first "polish the underefunding" of their readers, I take pleasure in stating that I shall for this turpose bring into requisition a full supply of "Link-ing" and "Slor Brushes," and in order that the reader may more fully appreciate the sweet and choice selections above mentioned, I shall preface each chapter with a full description of different varieties of Picties, Gross & Blackwell's Choic Choic and Piccelli, Gerbie's prepared Horse Radish and pure Cale: Fineger, for an a wise man once said every sweet his its sour, or samething to that effect. As this work will, undoubledly, fall in the hands of a great many highly educated persons, who will look

for the more dignified or "stiff" portions of the work, I shall introduce a heavy stock of Colgues & Flore: Pearl small introduces heavy stock of Colgates & Farral Pears Startes, whose stiffening qualities none can say ought against, and another class of readers who are too easily guilled by a large class of "Meally" mouthed authors, and are never willing to acknowledge the "Corn," shall be supplied with extracts from a large Him of Corn, Meal, Lys Meal, or unforted Four. The composition of this remedy includes those medicinal substances which experienced physicians have long resorted to for special action on the system when deranged by Fevers, Ague and General Debility, resulting from exposure or climatic influence. These are rendered permanent, and remain active in this preparation, as a conse-

quence of the scientific manner in which they bined. In this medicine no metalic salts can be found by he most delicate chemical analysis. In each package are two distinct medicines, a powerful vegetable tonic that will at once cure the Ague, and a box of Pills that will prevent its recorrence, or if takes in time will remove the causes that promote its first appearance. Price for the package 50 cents. For sale by all druggists in the State.

Below we give a few extracts from letters we have received that I yeegarding the virtues of this medicine.

Dr. S. Oslin, of Knorville, the, says:—I have been using your haverwort and Tar very extensively in my practice for three years past, and, it is with pleasure I state my belief in its superiority over all other articles with which I am acquainted, for which it is secommended.

Musers, Fitzgerald & Brenners, writing from Waynesville, S. C., says:—"The Liverwort and Tar is becoming daily more popular in this country, and we think justly so. All who have tried it speak in commended to terms of it, and say it is very beneficial in alloviating the complaints or which it is recommended.

Our Agent in Pickons District, S. C., Mr. S. R. McFall, assures us that he uses it with great benedi in his own family indrecommended it to his neighbors." He gives an instance is negro woman in his vicinity, who had been suffering ith disease of the Lungs for years, attended with sever cough, who was relieved by the Liverwort and Tar.

Such grathe good reports we hear of this Medicine from all parts of the South. For a report of the surprising cares it has performed in the Western and Northern and Kastern States, we would invite the suffering pation to read the painphlet which accompanies each bottle. To all we say, have ope, have hope!
